Paper Piecing Pattern

When printing the PDF file, please make sure that your page scaling options are set to 'none'. In the printout, the lines below should measure exactly 1 inch.

Note: All project measurements are centimeters.
Finished size: 15x15 cm plus seam allowances.

Use paper piecing to sew the individual sections and join according to the diagram.

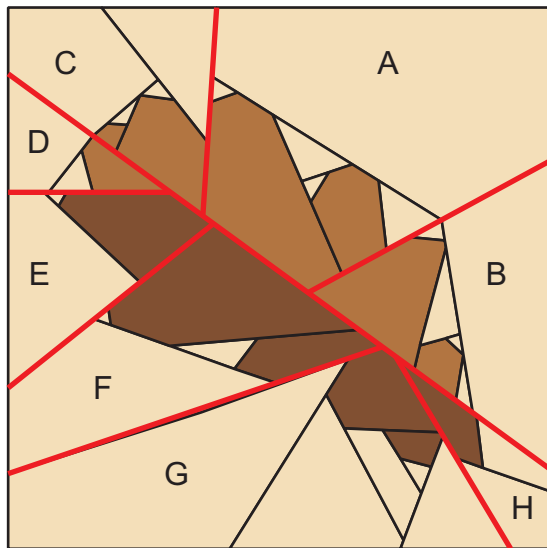

A table runner as shown will be about 50 x 23 cm groß. One leaf was mirrored.
The pattern has very tiny pieces. If in doubt enlarge it!

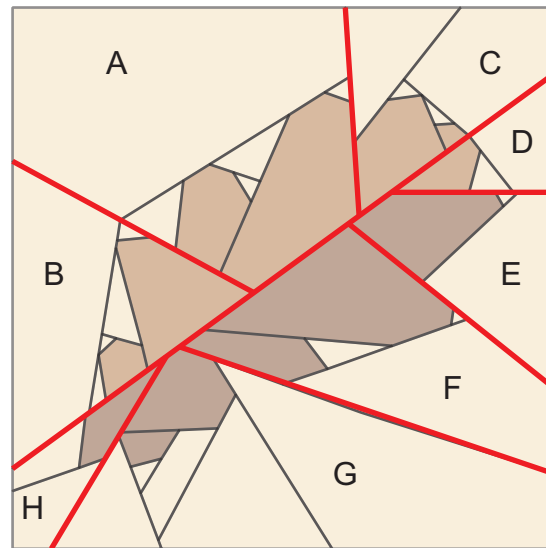

You can easily change the size of blocks to your needs by adjusting the page scaling in the printer settings of your computer or copier.
Here is the formula:
 $(\text{Desired size}) / (\text{Actual size}) \times 100 = \text{percentage for scaling}$
Example: If you want to enlarge a block from its actual size of 6" to 8", you calculate: $8" / 6" \times 100 = 133,33 \%$.
